

Material Safety Data Sheet

1. IDENTIFICATION DU PRODUIT

Trade name: Shampoo For Dog & Horses Citrolug 5007-250, 5007-1, 5007-4

Use: Shampoo

Manufacturer: Héloïse Laboratoire Inc
Saint-Jérôme Quebec

Tel: 514 781.5175

QUEBEC POISON CONTROL CENTRE: 1-800-463-5060

WHMIS Class: Unregulated Product

2. HAZARDOUS INGREDIENTS

Technical name	CAS	Conc %	LC50 (ppm)	LD50 (mg/kg)
No hazardous ingredients				

3. PHYSICAL PROPERTIES

Appearance: semi-viscous gel
Colour: purple-blue
Odour: Citrobug essential oils
pH: 6.5 – 7.0
Relative density (water = 1): 1.01 to 1.03
Vapour density (air = 1): > 1
Volatile matter (% w/w): 100(w/w)
Melting point (°C) S/O
Solubility in water : easily soluble

4. FIRE AND EXPLOSION HAZARD

Flammability: non-flammable product

Self-ignition temperature: Not available

Flammability limits: Not available

Extinguishing equipment: **Small fire:** use fire extinguishing powder

Large fire: use alcohol foam, sprayed or sprayed water,

Special firefighting technique: Use only an approved or certified breathing apparatus or its equivalent.

Unusual fire and explosion hazards: Not available

5. PREVENTIVE MEASURES

Procedure in the event of a leak or spill: Absorb with an inert material and place the spilled product in an appropriate recovery container. Complete the cleanup by spreading water on the contaminated surface and dispose of as required by local and regular requirements.

Waste disposal: recycle if possible. Consult local or regional authorities.

Ventilation: Adequate ventilation is normally required when handling or using this product. Ensure proximity to an eyewash and safety shower at the workstation.

Protective clothing:

- **Respiratory:** no special requirements
- **Eye protection:** no special requirements
- **Hand protection:** no special conditions
- **Other:** no special requirements

Handling:

Store away from heat and any flame source. Avoid contact with eyes.

Do not ingest. If swallowed, give 2 to 3 glasses of water or milk to dilute the product, do not induce vomiting and call a doctor if the victim continues to be inconvenienced.

Storage:

Keep the container in a cool, ventilated place, keep the container tightly closed when the product is not in use. Protect the product from any source of sparks or flame.

6. REACTIVITY

Stability: the product is stable for more than 10 years or during discoloration.

Condition to avoid: Not applicable

Incompatibility: avoid mixing the product with strong oxidants and strong bases.

Hazardous decomposition products: These products may be carbon monoxides

Hazardous polymerization risks: Does not occur.

7. HEALTH EFFECTS

Carcinogenic effects: Not applicable

Mutagenic effects: Not applicable

Teratogenic effects: Not applicable

8. FIRST AID

SKIN: If signs of irritation appear, discontinue use

EYES: rinse the eyes with plenty of water for at least 15 minutes if the product is introduced into the eyes.

INHALATION: put the victim in a cool, ventilated area

INGESTION: Do not induce vomiting and administer two to three glasses of water to dilute the product.

If necessary, call a doctor.
